PROJECTS:

Recipe Book - Recipe Management Website

[Live Link](#) | [Client Repo](#) | [Server Repo](#)

The Recipe Book App offers a seamless way to manage personal recipes, discover others' creations, and engage with the community—all in one place.

Key Features:

- Recipe Management – Easily add, edit, and delete your own recipes.
- Like System – Like your favorite recipes and see them rise to the top in real-time.
- Interactive Dashboard – Track your recipes and visualise likes with charts.
- Real-Time Updates & Responsiveness – Likes update instantly without page refresh, and the app works smoothly on any device.

Technologies: React, Javascript, React Router, Firebase, Express.js, MongoDB, TailwindCSS.

LibraFlow - Library Management Website

[Live Link](#) | [Client Repo](#) | [Server Repo](#)

LibraFlow is a web-based Library Management System designed to streamline school library operations.

Key Features:

- Book Management – Easily add, update, and categorize books.
- Borrow/Return System – Prevents duplicate borrowing and limits users to a maximum of 3 active loans.
- Secure Authentication – Implemented Firebase JWT tokens to ensure safe and authorised user access.
- Reliable Backend – Designed to handle all library operations smoothly and efficiently.

Technologies: React, Javascript, React Router, Firebase, JWT, Axios, Express.js, MongoDB, TailwindCSS.

Languages: English, Bengali, Hindi
